Attention: John A. Avila
4920 Corrales Rd.
Corrales, NM 87048

Subject: Notice Screening is Complete

Dear John A. Avila and Tom Ruehle:

PNM has completed the technical screening of your project in accordance with the New Mexico Interconnection Manual. You are cleared to begin construction of your solar facility.

Here are the next steps:

- **You will have 12 months from the date of this notice to interconnect your facility to PNM's system.**
- If your Solar Facility is interconnected to our system within the 12-month period and you and PNM have signed a REC Purchase Agreement (20 year term), you will receive net metering and a REC incentive payment of .14 cents per kWh. **Please note:** If your facility is not interconnected within the 12-month period, the REC purchase price will be re-set to the price that is available at the time your facility is actually interconnected. The new rate could be lower than the rate shown above.

I look forward to hearing that your solar project has been completed. If you have any questions about our program please do not hesitate to contact me at (505) 241-2589.

Sincerely,

Frank Andazola
Solar Project Manager

Subject: Notice of Completion of Application and REC Reservation

Dear Village of Corrales Library,

Thank you for your application for Interconnection and Large Solar REC Incentive Program. PNM has determined your application to be complete as of November 16, 2010. Here are the next steps:

- PNM will screen your project in accordance with the New Mexico Interconnection Manual. We will notify you when the screening is complete and you are cleared to begin construction of your solar facility.
- If your Solar Facility is interconnected to our system within the 12-month period and you and PNM have signed a REC Purchase Agreement (20 year term), you will receive a REC incentive payment of 14 cents per kWh. **Please note:** If your facility is not interconnected within the 12-month period, the REC purchase price will be re-set to the price that is available at the time your facility is actually interconnected. The new rate could be lower than the rate shown above.

I look forward to working with you on your solar project. If you have any questions about our program please do not hesitate to contact me at (505) 241-2589.

Sincerely,

Frank Andazola
