

Building Permits & Inspections

Building Permits & Inspections

The Building Official/Inspector enforces the provisions of the adopted Building Code (Ord 08-012). The purpose is to safeguard the public health, safety, and general welfare to life and property from fire and other hazards.

To obtain a Building Permit; Please email documents to [bgresham \[at\] corrales-nm.org](mailto:bgresham@corrales-nm.org) in a PDF format only. Building applications can be applied for in office but all plans will still need to be electronically submitted. After a permit is issued required inspections should be called in to the Building Official/Inspector.

The City of Rio Rancho performs mechanical, electrical, and plumbing inspections for the Village of Corrales. The permits and inspections for these disciplines should be coordinated with the prospective sub-contractor.

For questions regarding Building Permits or to set up an inspection call or email:
